

"Teaching for me is not just any profession; it molds character, activates thinking and stimulates learning. ECAE will allow me to fulfill my dream and teach the next generation of nationals. To me, this will be an invaluable experience to take part in developing my country and its youth. I encourage the male high school graduates to consider this life-changing opportunity."

Aziz Abdulrab Salem Al Mesabi
B Ed program 3

"I'm now studying in the Bachelor of Education program, and I am building on the skills I have learned in the Foundation Program. ECAE's multidisciplinary teaching methods, facilities, advanced laboratories, comprehensive library collection and the good learning and study environment have helped me progress a great deal academically."

Fatima Mohamed Salem Al Katheeri,
B Ed program 2

Emirates College for Advanced Education

ABOUT ECAE

Emirates College for Advanced Education was created in 2007 by H.H. Sheikh Khalifa Bin Zayed Al Nahyan to be the first Teacher Training College in the country. ECAE's mission is simple—to train the next generation of new Emirati teachers for the Abu Dhabi emirate and to help develop the skills and careers of existing teachers and principals in schools today.

At ECAE, our faculty and staff strive to provide high quality, practice-oriented education, training and research. The College's curriculum is designed to fit the needs of the Abu Dhabi education system as well as its future teachers.

When entering the teaching job market, ECAE's graduates will possess a broad knowledge base, modern teaching skills and an ability to think critically and creatively.

2011 PROGRAMS

- Four-year Bachelor of Education Program for eligible Emirati and expatriate students who meet ECAE's academic and English language prerequisites
 - The four-year degree program provides graduating high school students with an exciting and dynamic opportunity to pursue their chosen career in teaching. The program prepares future teachers to teach grades K-5, specializing in English, Mathematics and Science.
- One-year Foundation Program for Emirati students who have not yet met the Bachelor of Education Program requirements
 - The one-year full-time course is designed for students who make a transition from high school into college-level studies. Foundation students study English, Mathematics and Science through the medium of English and are also introduced to Information and Communication Technology (ICT).

ECAE also welcomes applications from high school graduates of all ages. Please contact the admissions office for further details.

WHY JOIN ECAE?

Emirates College for Advanced Education offers a wide variety of benefits including:

- 100% tuition-free scholarship
- Competitive monthly stipend
- Free laptop computer and books
- Experienced international faculty and staff
- Cutting-edge courses with hands-on practicum
- Accommodation and transportation to Emirati students living outside Abu Dhabi
- Employment opportunities at graduation
